1 Overview

Vector integrations must not contain EB tresos™ generation tool with activated license. Therefore the user has to perform some actions to prepare the EB tresos™ tool for configuration respectively generation. The EB Client License Administration utility (provided by the 3rd Party vendor or Elektrobit) supports the user in activating the EB tresos™ generation tool to work with the 3rd Party software packages (plugins).

Elektrobit offers several licensing variants:

- > Single User Licenses
- > Floating licenses
- > Dongled licenses

Note

This document only considers the first variant as this is Vector's method of working with EB tresos™ driven 3rd Party software packages. Further information regarding the other variants can be found in Additional Resources.

2 Handle the Single User License

This license variant is restricted for usage with your local PC.

2.1 Activation of the license

- > Install the EB Client License Administration utility with the default option to use license activation codes

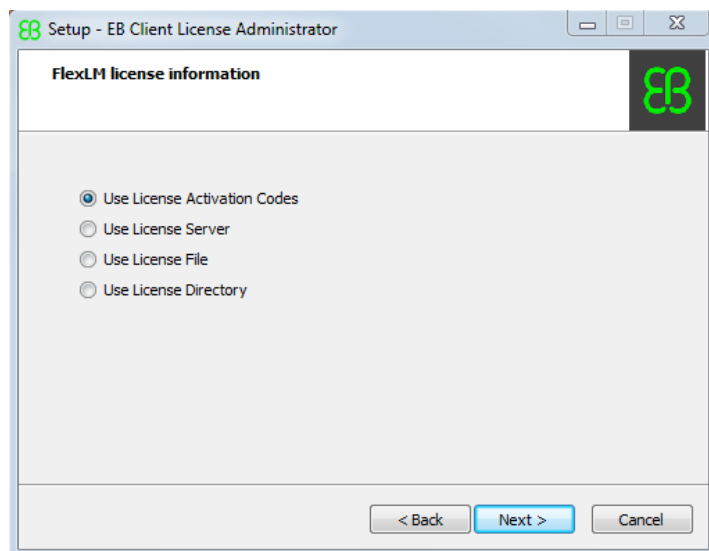

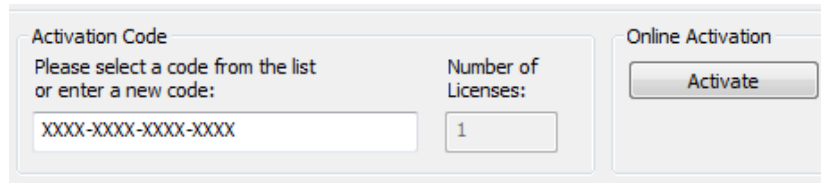

Figure 2-1 - Installing EB Client License Administration utility

- > Enter a valid activation code and press the "Activate" button; the utility will connect to the Elektrobit license server for verification of the activation code and inform you about the result in the "Status" window

Activation Code

Please select a code from the list or enter a new code:

XXXX-XXXX-XXXX-XXXX

Number of Licenses:

1

Online Activation

Activate

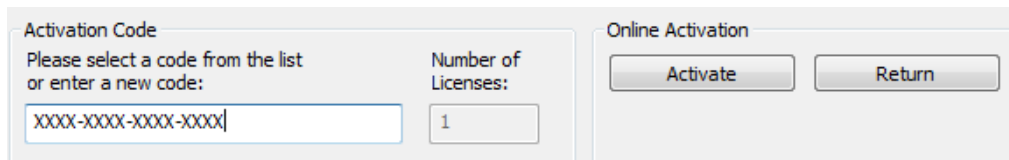

**Note**

The activation code has to be requested from the 3rd Party vendor.

Now EB tresos™ is prepared for configuration and generation via GUI respectively generation via command line (when using integration of Third-Party software with signed plugins within Vector tooling).

2.2 Deactivation of the license

If the license is no longer necessary you might remove it from your local PC by selecting the related license from the "Licenses" view and pressing the "Return" button

Activation Code

Please select a code from the list or enter a new code:

XXXX-XXXX-XXXX-XXXX

Number of Licenses:

1

Online Activation

Activate Return

3 Additional Resources

EB tresos™ User Documentation:

- > EB_tresos_installation_guide.pdf (provided with a Tresos installation from the 3rd Party vendor or Elektrobit)
- > LicensingUsersGuide.pdf (provided with the EB Client License Administration utility from the 3rd Party vendor or Elektrobit)
