Documentation Guide

MICROSAR Delivery

Installation and Update – READ THIS FIRST

The Installation Guide is an easy installation description to install tools and SIP properly.

Startup Manual – FOR BEGINNERS

Use the Startup_<OEM> to get familiar with MICROSAR BSW modules and the DaVinci Tools. It also contains a description to get the delivery basically running step by step.

Technical Details – FOR EXPERIENCED USERS

Find details about each MICROSAR module in the Technical References, use case and cross-module topics in the User Manuals and other specific information about various topics in the Application Notes.

Delivery Information – DELIVERY SPECIFICS !

Find details about your delivery in the Readme, the Delivery Test Report and the Delivery Description and the Product Information.

Tool Online Help

Every DaVinci tool provides an online help to learn how to handle the tool. Find the it via Help menu in the tools.

More Information

Find what is new and what is changed via our Release Notes, find issues and workarounds in the Issue Reports/Handling and find different articles, information and trouble shooting for various topics in our Knowledge Base.
